# Outlier Investigation and Feature Visualization

Plot salary, with x equally spaced:

Removed TOTAL:

From this point forward POIs are in blue and non-POIs in yellow.

Removed THE TRAVEL AGENCY IN THE PARK:

A lot of zeroes. This likely mean missing values as they were replaced by zeroes by feature_format.
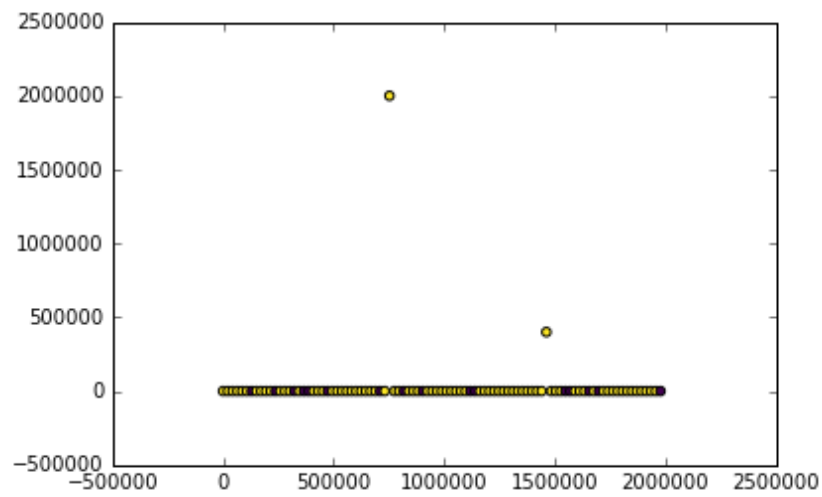

What if we remove all the points with 0 for salary?
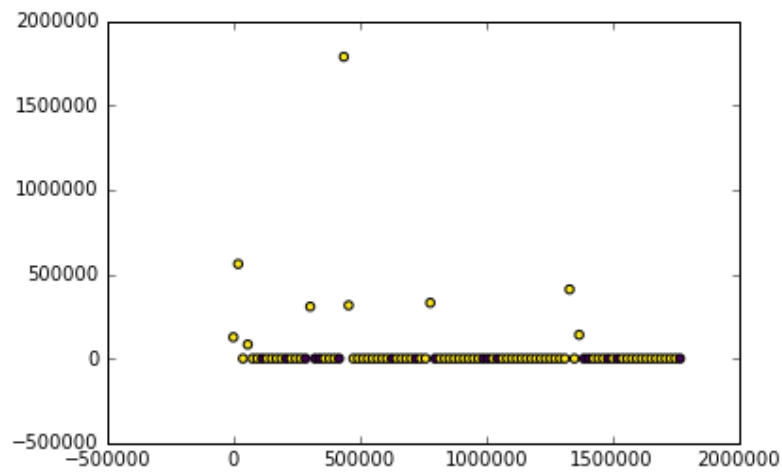

Loan advances:

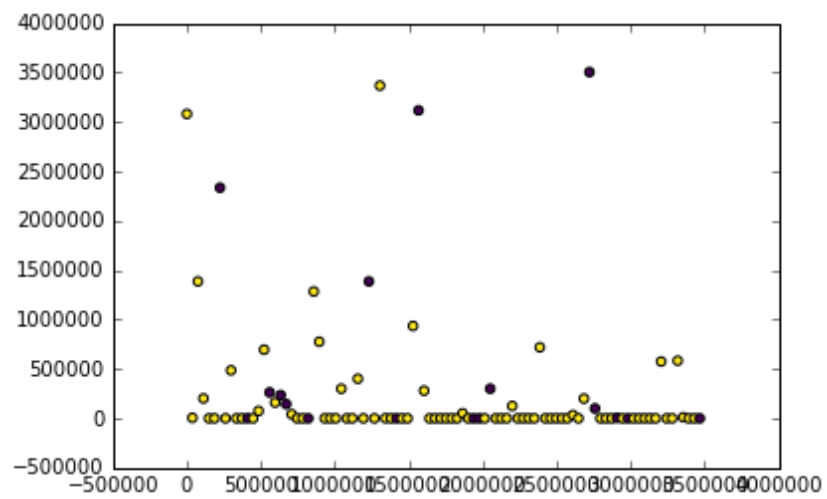

Removed outlier:

Too sparse. Will not use.

Bonus:

Restricted Stock Deferred times -1:

Too sparse, not using.

Deferred income time -1:

Total Stock Value:

Expenses:

Exercised stock options:
